EXPERIENCE

Senior Manager, AI & Data

Deloitte

📅 Jul. 2022 – Ongoing

📍 Frankfurt, Germany

- Embedding with enterprise clients as technical lead to design and deploy Agentic AI solutions using LangGraph, Python and Claude/GPT-4 APIs, with deployments on AWS EKS and Neptune graph database
- Delivering RAG architectures and multi-agent systems as customer-facing AI architect; supporting pre-sales RFPs with solution designs and win strategies across automotive, financial services and public sector clients
- Acting as AWS Solution Architect and technical lead for cloud migration and architecture blueprint engagements; designing multi-tenant platforms on Kubernetes, EKS and ECS
- Building production-grade AI evaluation frameworks and deployment patterns to ensure reliability and safety of LLM-powered applications in enterprise environments
- Designing enterprise data architectures spanning Snowflake, Databricks, Kafka and AWS; defining MCP server integrations and sub-agent skill patterns for complex workflow automation

Managing Delivery Architect

Capgemini

📅 Febr. 2008 – Jun. 2022

📍 Frankfurt, Germany

- Embedded as lead architect with enterprise clients across automotive, energy and public sector, translating complex business requirements into scalable cloud solutions
- Built and operated a microservice-based Cloud Integration Platform (iPaaS) as a Managed Service generating >2M EUR annual revenue, leading an onsite/offshore team of 14 FTE on a DevOps model; referenced in the Gartner Magic Quadrant
- Supported an automotive OEM in building a sovereign data space aligned with Gaia-X principles, shaping the architecture for cross-industry data exchange
- Led cloud adoption initiatives with Germany's Federal Ministry of Economic Affairs, defining trusted cloud criteria and conducting compliance reviews for SMEs
- Served as bid lead architect for major public and private sector RFPs, owning technical solution design and customer stakeholder engagement

Systems Engineer

T-Systems

📅 2003 – 2008

📍 Darmstadt, Germany

PROFILE

"I embed with enterprise teams, build AI systems that work in production, and stay until the job is done."

EDUCATION

Ph.D. in Computer Science

Plymouth University

School of Engineering, Computing and Mathematics

📅 2008 – 2015

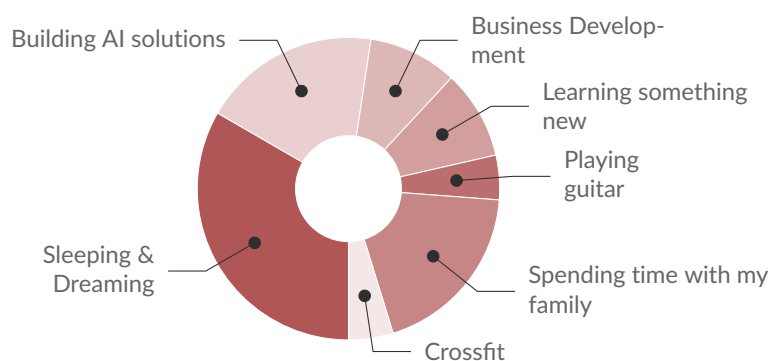

Thesis: *High-Performance Near-Time Processing of Bulk Data*

- Designed and developed a high-throughput bill formatting and processing system for a large telecommunications provider, handling >30 million bills per month

CERTIFICATIONS

- Cloud Security Professional (CCSP)
- Professional Scrum Master (PSM I)

A DAY OF MY LIFE

M.Sc. in Computer Science

Hochschule Darmstadt

📅 2005 – 2008

B.Sc. in Computer Science
